PEFA MATUMAINI REHABILITATION CENTRE
REACHING OUT TO THOSE IN NEED

REFLECTIONS

The prolonged National Teachers strike over salary increment is in its fifth week. This is causing a lot of anxiety to the children as well as the parents. What worrying parties do not appreciate is that by these children being not in school, this is what it means for some:

1. Not getting the only source of at least one meal in a day.
2. Being out of school means children are at home and unattended
3. It puts these children at risk of pedophiles.

This is the term where students sit for national exams that results to them graduating to either secondary or college or university.

It is very sad to see two bulls fighting.

(Teachers union Vs Teachers Service Commission. .

Please pray that this stalemate is resolved very quickly
